COHORT 3 Geriatrics Workforce Enhancement Programs and Dementia Education

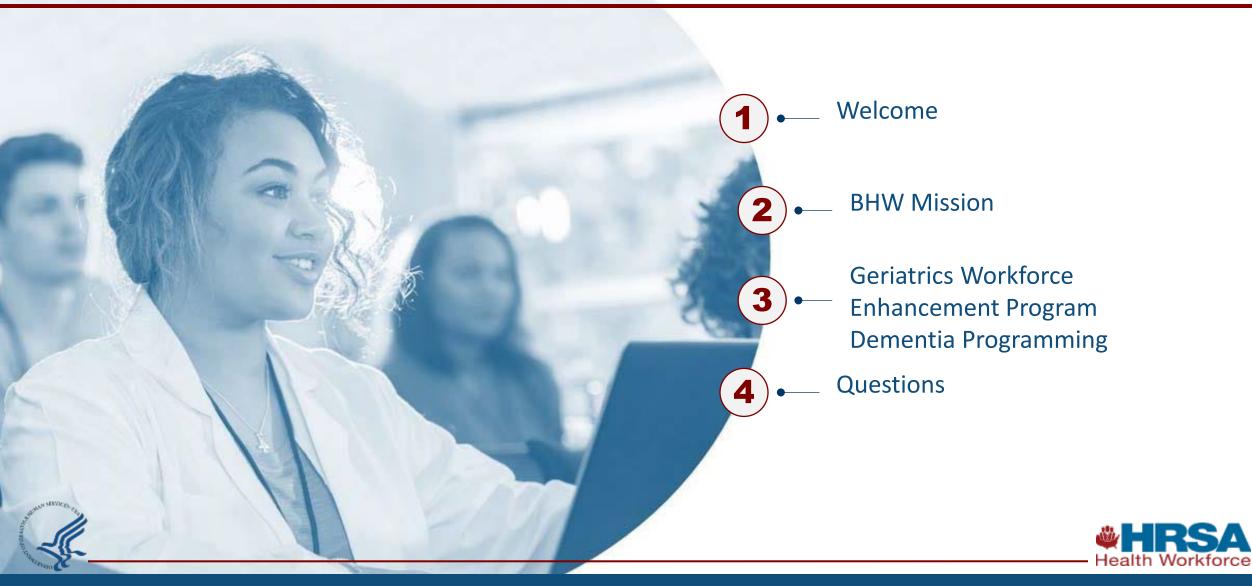

September 24, 2024

Nina Tumosa Senior Public Health Analyst-Geriatrics, Division of Medicine and Dentistry Bureau of Health Workforce (BHW)

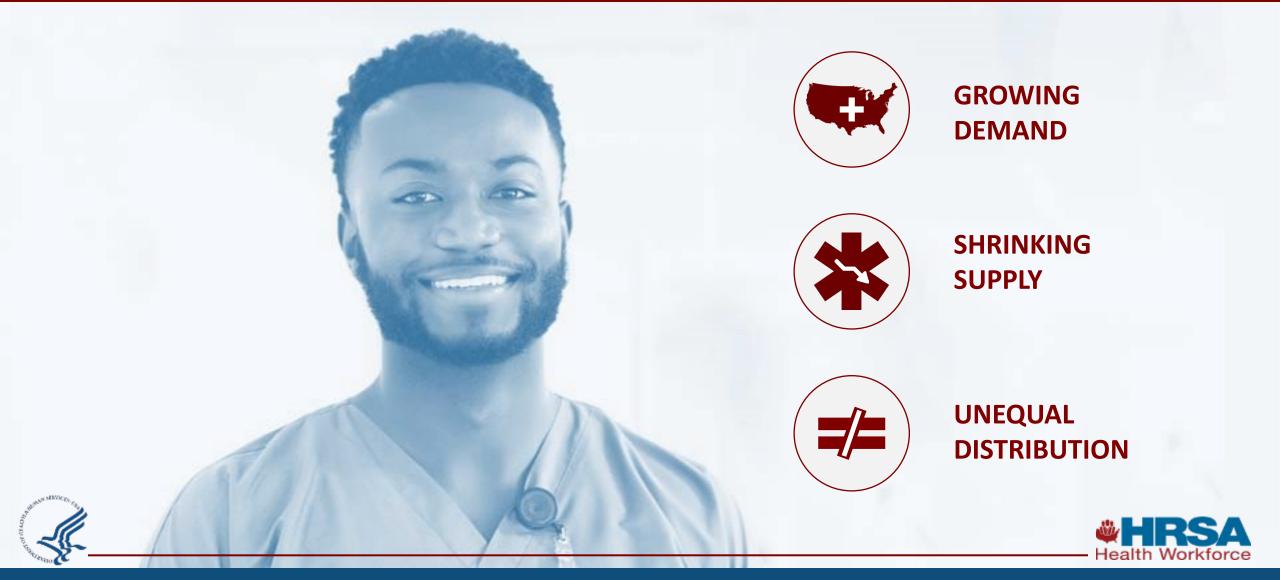

Vision: Healthy Communities, Healthy People

Agenda

The U.S. Health Workforce

Bureau of Health Workforce

MISSION Improves the health of underserved populations by

- strengthening the health workforce
- connecting skilled professionals to communities in need

EDUCATION

TRAINING

SERVICE

Introduction to the Geriatrics Workforce Enhancement Program (GWEP)

- **GWEP Purpose:** To educate and train the health care and supportive care workforces to care for older adults by collaborating with community partners.
- **GWEP Goal**: To educate and train the primary care and geriatrics workforces and other appropriate specialties to provide age-friendly and dementia-friendly care for older adults in integrated geriatrics and primary care sites/delivery systems
- Dementia Training Requirement: At least \$230,000 used to educate and train the health care and supportive care workforces in ADRD in TTOUR primary care sites and delivery systems and provide financial support to trainees in these sites.

2024 GWEP Cohort 3 Geographic Distribution

- 37 states
- Five states have two GWEPs each:
 - CA, NY, PA, FL, and TX
- 32 states with one GWEP each:
 - AL, AR, AZ, CT, DE, GA, HI, IA, IL, IN, KS, KY, LA, MD, ME, MI, MN, MO, NC, ND, NH, NJ, NV, OH, OK, OR, RI, TN, VA, WA, WI, and WY

Demographics of Cohort 3 GWEPs

- Cohort 3 HRSA-funded Geriatrics Workforce Enhancement Programs are in 37 states
- The newly funded Cohort 3 of 42 awardees consists of
 - 11 Schools of Nursing
 - 23 Schools of Medicine
 - 3 Clinical Social Work graduate programs
 - 2 clinics (including 1 FQHC)
 - 1 School of Allied Health
 - 1 School of Public Health
 - 1 Clinical Psychology graduate program

Examples of ADRD Projects of Cohort 3 GWEPs

- 1. Oklahoma Dementia Care Network (based in Schools of Medicine and Public Health), will spend 100% of its budget on ADRD activities.
 - a. Partnering with 2 tribal health clinics and 16 rural sites, 10 of which are in primary care health professions shortage areas (HPSAs) throughout OK.
 - b. OK has an established Community Health Worker/Community Health Representative (CHW/CHR) training in dementia program.
- 2. NYU GWEP (School of Nursing) will use ¼ of its overall budget for its ADRD activities.
 - a. They are partnering with 8 primary care practices in HPSAs in the Bronx
 - b. Their activities include providing ADRD training for
 - i. CNAs, CHWs, home health aides , and nursing home administrators.
 - ii. FQHCs.
 - iii.Developing referral loops/ workflows in primary care sites for persons with positive cognition screens.

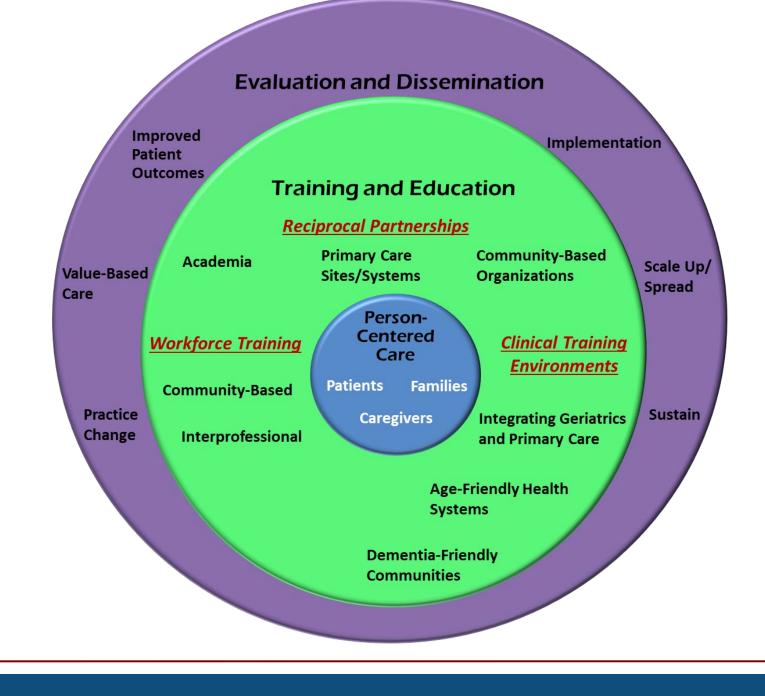

Final Example of ADRD Projects of Cohort 3 GWEPs

3. University of Iowa School of Public Health GWEP will spend 1/3 of its budget on ADRD activities.

- a. Partnering with 5 rural sites (one of which is a HPSA, and another is a county department of PH)
- b. ADRD activities include:
 - Advancing Dementia Friendly Iowa.
 - Community-based education partnering with faith-based organizations.
 - An emphasis on Veterans dementia care.
 - Empowering CNAs to become geriatrics specialists.
 - Simulation training for care givers.

Road Maps

THE HBI ROAD MAP SERIES

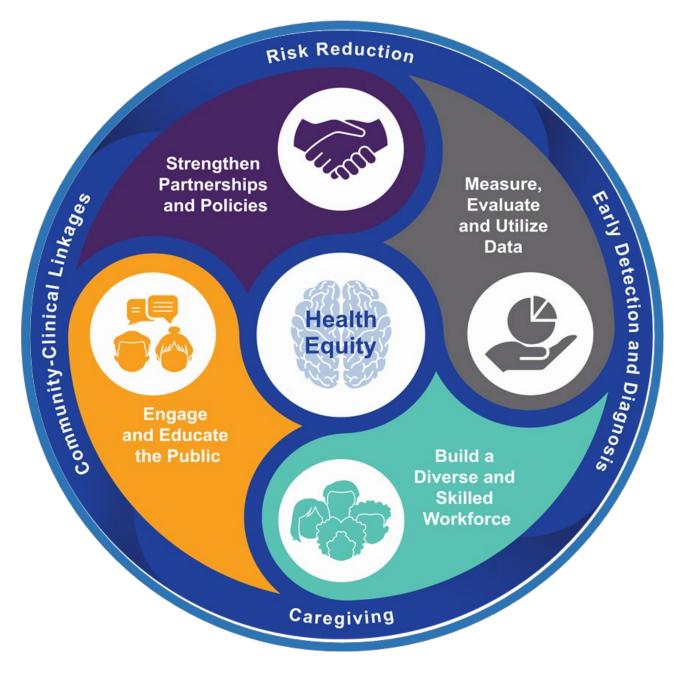

Public health strategies to promote brain health, address dementia, and help support caregivers

https://www.cdc.gov/aging-programs/php/nhbi/roadmap.html

The Action Framework

Advance brain health as a central part of public health practice (nationally)

BOLD is designed to create a strong public health infrastructure for dementia and dementia caregiving

Long-Term Goals

- 1) Improve conversations about cognitive health between patients and providers.
- 2) Increase diagnosis and awareness.
- 3) Reduce preventable hospitalizations.
- 4) Increase utilization of Medicare benefits.

PRODUCT EXAMPLES

ACPM Community-Clinical Linkages to Promote Brain Health

NEW Toolkit: Community-Clinical Linkages to Promote Brain Health

Brain-Health-Kit-v10.cdr (acpm.org)

- Designed for preventive medicine providers to implement and inform their practice around improving brain health within health systems.
- This tool aims to activate preventive medicine physicians and educate patients on ADRD, reduce risk factors related to dementia, and improve the brain health and cognitive functions of populations by leveraging clinical-community linkages through an equity-centered approach.

<u>Heart Healthy is Brain Healthy:</u> <u>Cognitive Decline and</u> <u>Dementia Risk Reduction</u> <u>through Blood Pressure Control</u>

The Healthy Brain Resource Center (HBRC) is a one-stop, easy-tonavigate website that helps users find credible information and materials to support implementing the Healthy Brain Initiative Road Map.

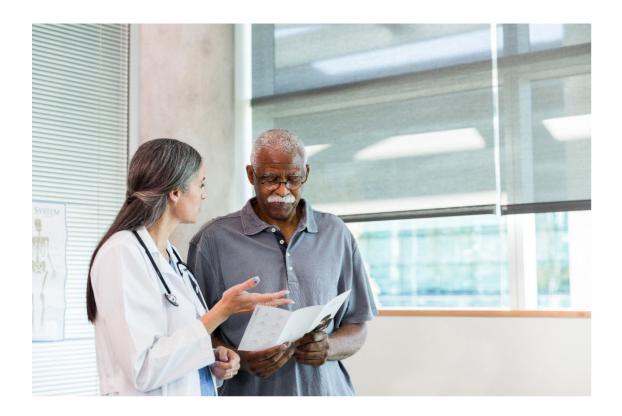

The HBRC currently features over 400 publicly available resources.

- CDC-verified resources and information all in one location.
- Robust search functions to quickly access information.
- A user manual and orientation video provide guidance on how to use the HBRC.
- Rolling content submissions accepted.
- Visit the HBRC at

https://www.cdc.gov/aging-programs/php/resource-center/index.html

Alzheimer's Disease and Related Dementias State Plan 2023-2027

Alzheimer's Disease & Related Dementias State Plan

2023-2027

Oklahoma State Department of Health Chronic Disease Prevention Service

Workforce Development

By 2025, Increase healthcare workers in-service opportunities throughout the state by 10%, with a 5% increase each year after.

Organizations responsible: Oklahoma Dementia Care Network, Oklahoma State Department of Health

- Utilize the curriculum and trainings created by the Oklahoma Dementia Care Network and Project Echo for CNAs and CMAs across the state.
- Establish/maintain 5% of newly graduating CNAs with dementia certification over the next five years.
- Increase the number of current CNAs and CMAs with dementia certification by 5% over the next five years.

By January 2024, provide Alzheimer's Disease and Related Dementias specific certification for Community Health Workers (CHWs) and Community Health Representatives (CHRs).

Organizations responsible: OUHSC Hudson College of Public Health, Oklahoma Dementia Care Network

Promote and utilize Dr. Reinschmidt's ADRD-specific training for CHWs and CHRs.

By 2025, Increase first responders Alzheimer's Disease and Related Dementias training opportunities throughout the state by 5%.

Organizations responsible: Oklahoma Dementia Care Network, OU College of Medicine

 Utilize the curriculum and trainings created by the Oklahoma Dementia Care Network and OU College of Medicine.

Dementia Friendly Oklahoma is an initiative to bring awareness and education across the state to support those living with dementia and their care partners. Oklahoma is a member of the Dementia Friendly America® Network which is a multi-sector, national collaborative on a mission to foster communities that are equipped to support people with dementia and their family and friend care partners by working to become "dementia friendly."

Host an Educational Presentation today to begin your journey to becoming more **Dementia Friendly!**

PHCOE on Dementia Caregiving

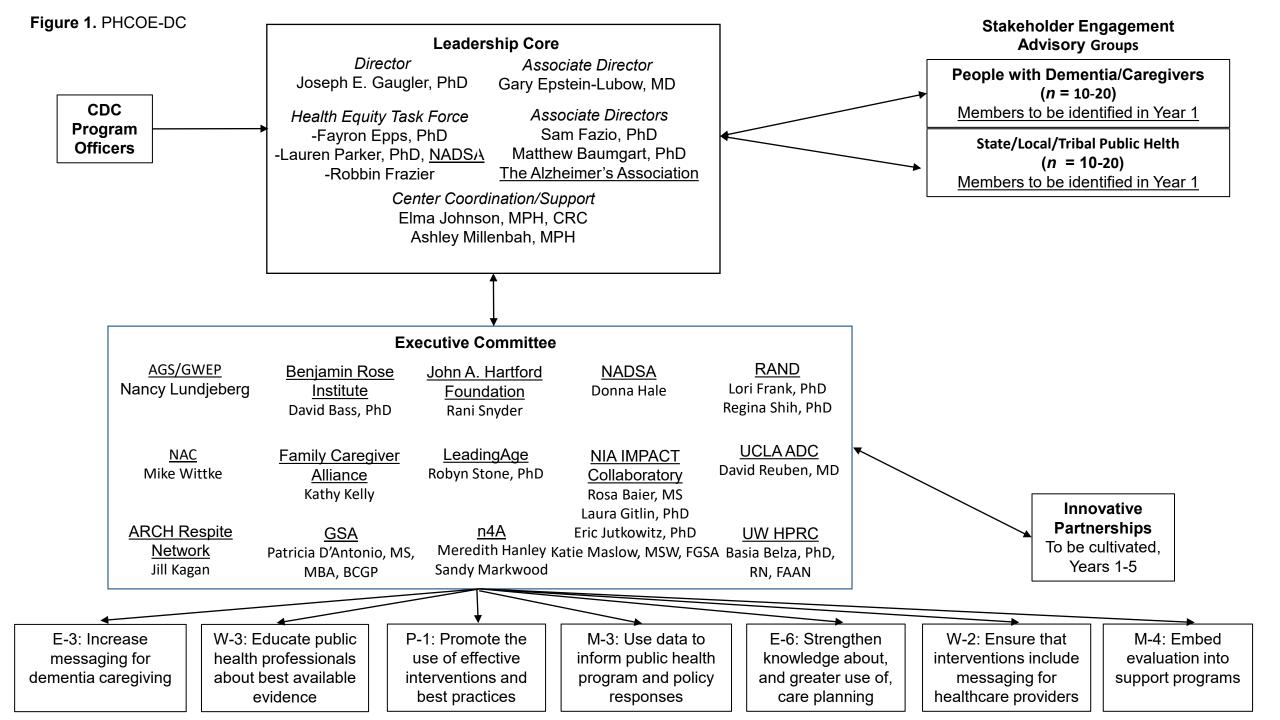

Our **Mission** is to assist state, tribal and local public health agencies nationwide in developing their dementia caregiving-focused programs and initiatives.

We achieve our mission by:

- 1. Providing expert **technical assistance** to public health agencies for selecting their caregiving-related goals.
- 2. Improving access to & use of evidence-based programs, tools, materials and best-practices in dementia caregiving.
- **3. Facilitating connections and collaboration** between public health agencies and a wide network of providers and organizations serving dementia caregivers.
